Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/8/2004 has been entered.

Allowable Subject Matter

2. Claims 1-3, 8, 11-13, 20, and 21 are allowed.

3. The following is an examiner's statement of reasons for allowance: The closest prior art has been made of record in the prior Office actions. Applicant's arguments in the response filed 10/8/2004, with respect to this prior art, have been fully considered and are persuasive. With respect to Bier, applicant has perfected priority, thereby eliminating this reference as prior art under 102(a). With respect to Calahan, because this reference teaches or suggests neither reacting a second activating agent with a component of the polyamine nor repeating such a reaction, applicant's arguments are persuasive and the rejection in view of Calahan is withdrawn. With respect to Stolowitz, although this reference (contrary to applicant's assertion) teaches reacting the functionalized surface with a diamine (which is the simplest polyamine, 5:26), it teaches or suggests neither reacting a second activating agent with a component of the polyamine nor repeating such a reaction, applicant's arguments are persuasive and the rejection in view of Stolowitz is withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
